

Aagency.ai

Complete Offer Creation Worksheet
START AI AGENCY. SELL AUTOMATION.

🎯 1. What is your niche?

Ambitious entrepreneurs and business owners who want to build profitable AI agencies that dominate specific local business niches (plumbers, dentists, gyms, salons, etc.) - even if they have zero technical experience or prior agency background. Aagency.ai provides the complete system, software, and support to become the go-to AI automation expert in their chosen market.

👤 2. What is their current situation?

They're stuck in traditional business models, overwhelmed by AI hype, and frustrated by generic "make money online" advice. They want to capitalize on the AI revolution but don't know where to start, lack technical skills, and fear competing in saturated markets. They crave a clear path to building a premium, specialized business with recurring revenue and real authority in a specific niche.

🏆 3. What is their desired outcome?

To become the recognized AI automation expert for their chosen niche - landing consistent clients, building \$10K+ monthly recurring revenue, and owning a unique position as the go-to solution provider. They want to build a real business asset that generates predictable income while helping local businesses thrive with AI automation.

⚠️ 4. What is it costing them not changing?

- Missing the AI revolution and new wealth opportunities
- Stuck in commoditized, low-margin service businesses
- No authority or unique positioning in any market
- Competing on price instead of value
- Ongoing financial uncertainty and business stress

💎 5. What would it be worth for them to get to their desired outcome?

- True financial freedom and predictable recurring income
- Instant credibility as the #1 AI expert in a profitable niche
- A valuable business asset that grows automatically
- Peace of mind from owning a future-proof, recession-resistant business
- The satisfaction of helping local businesses succeed with cutting-edge technology

👥 6. What are most people trying, and is it working?

- Selling generic marketing or AI services to anyone (leads to price wars)
- Buying broad "AI agency" courses with no niche focus (leads to overwhelm)
- White-labeling tools without unique positioning (becomes commodity)
- Cold outreach without proof or specialization (leads to rejection)

Most fail because they try to be everything to everyone instead of becoming the specialist that commands premium prices.

📁 7. What are others selling, and does it work?

- Generic "AI Agency" courses that teach theory, not execution
- GoHighLevel access with no niche focus or fulfillment support
- Community access with no hands-on implementation help
- Template libraries without real client delivery systems

Most offers are generic, saturated, and lack the specialized focus and done-with-you support that creates real results.

★ 8. What are successful people doing?

- Focusing on ONE niche and becoming the recognized specialist
- Using proprietary tools and automations tailored for their industry
- Getting hands-on help to land and deliver their first clients successfully
- Building case studies and testimonials quickly
- Creating recurring revenue systems, not one-time projects
- Positioning themselves as the only choice in their niche

🔥 9. What's included in your offer, and what makes it different?

🚀 "Client Magnet" - \$2,997/year

Phase 1: Master the Foundation

- Complete AI agency training system
- Niche selection and positioning strategies

\$ 10. Price (Value-Based)

Client Magnet

\$2,997/year

Complete foundation system with 5-client setup and ongoing software expansion

Revenue Engine

\$6,997/year

Complete software suite with 10-client setup, personal support, and VIP access

🛡️ 11. Guarantee

"First Client Success" Guarantee

Client Magnet: Land your first paying client in 60 days following our system, or we work with you until you do. Still no client? Full refund, and you keep all software and systems.

Revenue Engine: Generate \$10K in revenue within 90 days using our complete system, or receive full refund plus continued personal mentoring until you succeed.

🕒 12. Scarcity & Urgency

- Limited software development capacity - we can only support a certain number of white-label partners
- Personal support limitations - Taqi can only mentor a limited number of Revenue Engine members
- Exclusive software access - new tools released to existing members first
- Price increases as software suite expands and proven results multiply

👥 13. Testimonials & Social Proof Collection

- Built-in case studies from client delivery sessions
- Video testimonials recorded during success milestone calls
- Public success showcases in community "Wall of Wins"
- Existing track record: JVZoo 6-Figure Entrepreneur Award, Alex Becker collaboration
- Proven software development history with hundreds of satisfied customers
